as director gus van sant observes in the introduction to matt damon s and ben affleck s screenplay good will hunting the two young actors somewhat resemble the characters they play in the film they re best friends and affleck who plays chuckie habitually chauffeurs damon will who doesn t drive van sant says we can see how badly damon drives by watching the film s last scene in which he is actually driving the car with the camera mounted on it but damon and company write better than he drives this script contains some of the boldest best monologues since pulp fiction van sant and cast member robin williams helped the young actors tame the tigers in their cranial tanks trimming the script into a precision instrument though the stills from the film are not perfectly matched to their places in the script this story remains as much a joy to read as it is to watch on the big screen

one of the most talented and imaginative artists of independent cinema gus van sant established himself with a number of important movies of the late 1980s and early 1990s beginning with mala noche the 1986 gay classic of personal film expression followed by two key works of the american indie movement drugstore cowboy and my own private idaho van sant films often feature characters on the borders of mainstream society subsequent films included hits misses and a notorious remake of psycho regardless of the critical or commercial response to his work van sant has maintained a vision that is unique among contemporary filmmakers conversations with gus van sant is the first critical study to include both extensive original interviews with the director as well as discussions of his entire body of work the exchanges between film scholar mario falsetto and the indie filmmaker cover fifteen films directed by van sant over a period of thirty years throughout these discussions van sant talks candidly about

each film's production history, visual style, editing patterns, and creative soundwork, the director also expounds on his work with actors, the relationship of independent filmmakers to the wider film industry, and many other subjects related to his filmmaking process. The conversations examine the rich thematic explorations of van Sant's films, which often revolve around the search for love and community on the margins of society, and feature a fascination with death from experimental films such as *Gerry*, *Last Days in the Desert*, and *Paranoid Park*, where van Sant rebooted his understanding of cinema and his relationship to the Hollywood film industry to *Milk* and *Promised Land*. This book explores the rich network of meanings in the director's work by melding the author's critical perspective with the filmmaker's own ideas. Conversations with Gus Van Sant create a wider perspective on one of the most iconoclastic and imaginative directors of the last thirty years.

Unlike most screenwriting guides that generally analyze several aspects of screenwriting, *Constructing Dialogue* is devoted to a more analytical treatment of certain individual scenes and how those scenes were constructed to be the most highly dramatic. *vis à vis* their dialogue. In the art of screenwriting, one cannot separate how the scene is constructed from how the dialogue is written; they are completely interwoven. Each chapter deals with how a particular screenwriter approached dialogue relative to that particular scene's construction, from *Citizen Kane* to *The Fisher King*. The storylines have changed, but the techniques used to construct scene and dialogue have fundamentally remained the same. The author maintains that there are four optimum requirements that each scene needs in order to be successful: maintaining scenic integrity, advancing the storyline, developing character, and eliciting conflict. By comparing the original script and viewing the final movie, the student is able to see what exactly was being accomplished to make both the scene and the dialogue work effectively.

In the late 1980s, a generation of filmmakers inspired by the directors of the 1970s began to flower outside the studio system. In the following decade, the independent movement bloomed. In this volume, Biskind tells the story of these filmmakers and the independent distributors.

Mathematics has maintained a surprising presence in popular media for over a century. In recent years, the movies *Good Will Hunting*, *A Beautiful Mind*, and *Stand and Deliver*, the stage plays *Breaking the Code* and *Proof*, the novella *Flatland*, and the hugely successful television crime series *Numb3rs* all weave mathematics prominently into their storylines. Less obvious but pivotal references to the subject appear in the blockbuster TV show *Lost*, the cult movie *The Princess Bride*, and even Tolstoy's *War and Peace*. In this collection of new essays, contributors consider the role of math in everything from films, baseball, crossword puzzles, fantasy, role playing games, and television shows to science fiction, tales, award-winning plays, and classic works of literature, revealing the broad range of intersections between mathematics and mainstream culture. This collection demonstrates that even mass entertainment can have a hidden depth.

Finally, a sequel as good as the original, enlivened by humorous incidents, brewing controversies, and deeply moving personal dramas. *Inside Oscar 1995-2000* offers the complete lowdown on six more years of Academy Awards glory, from *Braveheart* in 1995 through *Gladiator* in 2000, with the Titanic phenomenon and *The Saving Private Ryan*, Shakespeare in Love, *Feud in Between*, there is also
