a collection of recipes or instructions for projects designed to demonstrate aspects of topics such as the physics of sound and plant behavior

directions for creating science exhibits which demonstrate scientific principles in such areas as mechanics electricity stereoscopic vision sound heat and light

the museum in america captures the life stories of thirteen visionary museum leaders who helped transform the 19th century s collection of curios into today s institution of public

service and education in the lively style of museum masters alexander recounts the stories of pioneers in american history science art and general museums for anyone interested in the history of the museum this volume is the place to start

a collection of recipes or instructions for projects designed to demonstrate aspects of topics such as the physics of sound and plant behavior

this book explores effective approaches for communicating science to the public in developing countries offering multiple perspectives on this important topic it features 17 chapters that represent the efforts of 23 authors from eight countries australia bangladesh india ireland new zealand usa singapore and south africa inside readers will find a diversity of approaches to communicate science to the public the book also highlights some of the challenges that science communicators science policy makers science teachers university academics in the sciences and even entrepreneurs may face in their attempts to boost science literacy levels in their countries in addition it shares several best practices from the developed world that may help readers create communication initiatives that can lead to increased engagement with science in communities in the asia pacific region and beyond given the pervasive influence of science and technology in today s society their impact will only increase in the years to come as the world becomes more globalized and the economies of countries become more inter linked this book will be a useful source of reference for developing countries looking to tap into the potential of science for nation building and effectively engage their communities to better understand science and technology supported by the pacific science association hawaii

a collection of recipes or instructions for projects designed to demonstrate aspects of topics such as the physics of sound and plant behavior

the idea for this text stemmed from the fruitful experience gathered during the training course of 9 nigerian university students organized in naples from 3 to 18 september 2008 by the team of fondazione idis città della scienza under the project science centre owerri the training course turned out to be not only an educational opportunity to acquire knowledge and skills for these students but also a real and practical tool that later led to the realization of the first science festival of owerri in nigeria in may 2009 this in turn sparked the idea of creating a highly practical handbook for those who want to face the challenge of developing new projects for the dissemination and socialization of science in developing countries in these countries the role of scientific education and training in schools is not sufficient to arouse scientific curiosity among young people and make the population aware of the importance of scientific knowledge in everyday life moreover science and technology are indispensable tools for people s empowerment and should be supported with actions that encourage curiosity about science and the intelligent use of technology to bridge the divide with developed countries it is therefore necessary to set up activities that are carefully targeted to promote and communicate science the text has been designed as a practical guide to be used in a variety of contexts scientific events or more structured science festivals training the creation of scientific cultural associations and the development of new science centres besides being an excellent tool for training and supporting the design and planning phases the manual can also be used as a reference work for institutions and local cultural services which have to select projects of this type
